If any license or permit is required, tenderers must specify in their Tender and also state the authority to whom the application is to be made.

18. SUPPLY OF REQUIRED QUANTITY:

The Tender may be for the entire or part supplies. But the tenderers should be prepared to carry out such portion of the supplies included in their Tender as may be allotted to them.

19. FAILURE OF THE TENDERER TO SUPPLY THE QUANTITY ORDERED:

(a) In cases where a successful tenderer after having made partial supplies fails to fulfill the contracts in full, all or any portion / parts be purchased by means of another tender or by negotiation or from the next higher tenderer who had offered to supply already and the loss, if any, caused to **the Deputy Commissioner/Chief Executive Officer, LAHDC, Leh Ladakh J&K Govt./ Project Director, LREDA-LAHDC, Leh-Ladakh** shall thereby together with such sums as may be fixed by **the Deputy Commissioner/Chief Executive Officer, LAHDC, Leh Ladakh J&K Govt./ Project Director, LREDA-LAHDC, Leh-Ladakh** towards damages be recovered from the defaulting tenderer.

(b) Even in cases where no alternate purchases are arranged for the materials not supplied, the proportionate portion of the security deposit based on the cost of the materials not supplied at the rate shown in the tender of the defaulter shall be forfeited and balance alone shall be refunded.

(c) Any sum of money due and payable to the contractor (including Security Deposit returnable to him) under this contract may be appropriated by **the Deputy Commissioner/Chief Executive Officer, LAHDC, Leh Ladakh J&K Govt.** or any other person authorized by **the Deputy Commissioner/Chief Executive Officer, LAHDC, Leh**

Ladakh J&K Govt. and set off against any claim of the **Deputy Commissioner/Chief Executive Officer, LAHDC, Leh Ladakh J&K Govt.** for the payment of a sum of money arising out of or under any other contract made by the contractor with the **the Deputy Commissioner/Chief Executive Officer, LAHDC, Leh Ladakh J&K Govt./ Project Director, LREDA-LAHDC, Leh-Ladakh** or any other person authorized by the Centre.

20. MONEY DUE AND PAYABLE:

Any sum of money due and payable to the successful tenderer or contractor from **the Deputy Commissioner/Chief Executive Officer, LAHDC, Leh Ladakh J&K Govt./ Project Director, LREDA-LAHDC, Leh-Ladakh** shall be adjusted against any sum of money due to **the Deputy Commissioner/Chief Executive Officer, LAHDC, Leh Ladakh J&K Govt./ Project Director, LREDA-LAHDC, Leh-Ladakh** from him under any other contracts.

21. CONDITIONS PRESCRIBED BY THE TENDERERS:

Special conditions, if any, printed on the Tender sheets of the tenderer or attached with the tender will not be applicable to the contract unless they are expressly accepted in writing by the purchaser.

22. DELIVERY:

The masts should be fabricated, transported to the selected sites and installation within 90 days from the date of issue of work order by **the Deputy Commissioner/Chief Executive Officer, LAHDC, Leh Ladakh J&K Govt./ Project Director, LREDA-LAHDC, Leh-Ladakh.**

If the guaranteed delivery period is not kept up the Liquidated Damages specified herein will be enforced. **The Deputy Commissioner/Chief Executive Officer, LAHDC, Leh Ladakh J&K Govt./ Project Director, LREDA-LAHDC, Leh-Ladakh** is at liberty to alter the delivery period to suit its needs as and when necessity arises, during tendency of the contract.

23. LIQUIDATED DAMAGES

The delivery / completion period given in clause 'Delivery' shall be guaranteed by the supplier under the following 'Liquidated Damages' clause.

If the supplier / contractor fails to deliver, satisfactorily the materials within the time specified in the order/contract or any extension thereof the **CWET** shall recover from the supplier/contractor as Liquidated damages a sum of 1 % of the contract price for each completed week of delay. The total liquidated damages shall not exceed five percent (5%) of the contract price of the items / materials so delayed.

If supplies / services to be rendered against this contract are made by the contractor beyond the period of delivery stipulated in the contract and they are accepted by **the Deputy Commissioner/Chief Executive Officer, LAHDC, Leh Ladakh J&K Govt./ Project Director, LREDA-LAHDC, Leh-Ladakh** such acceptance is without prejudice to the rights to recover liquidated damages for the delay in supply. **The Deputy Commissioner/Chief Executive Officer, LAHDC, Leh Ladakh J&K Govt./ Project Director, LREDA-LAHDC, Leh-Ladakh** will also be at liberty to cancel the order if the

supply is not completed within the stipulated delivery period notwithstanding the Liquidated Damages Clause applicable for the belated supplies.

ANNE XURE - B

GUIDELINES TO BE FOLLOWED IN THE FABRICATIO OF THE 50 M TUBULAR MAST

Aim: To collect the wind velocity data and other meteorological parameters using sensors fixed on the mast at multiple levels generally 10,30 and 50 m above ground. (The exact levels will be informed before packing and dispatch of the materials)

Data:

Length of mast: 50 m

The mast needs to be made up to 50 m using multiple segments generally of uniform length and diameter or it can be of tapered nature. The joining of segments can be either using bolts or clamps or could be sliding type.

Mast Material: The mast material and other components including foundation bolts can be MS pipes (as per appropriate IS) hot dip galvanized or otherwise protected against corrosion. Adequate corrosion protection is necessary as the masts are to be deployed in a highly coastal environment. The protective coat shall be on both ID and OD of the pipe. Corrosion protection shall be last step in the manufacturing process.

Guy wire size: The diameter should be such it is easy to handle at the time of installation and storing. The material should be galvanized steel core wire ropes

Guy Positions: Six level guy wires (with 4 guy wires at each level) with multi guy radii. The mast erection should not require elaborate installation equipments such as cranes or derricks. It should be feasible to install the mast with lightweight crab winch or a pulling & lifting machine. For ease of installation a tilt up mast installation procedure is recommended.

Installation of mast: Using gin pole and with portable lifting machine. The mast should be easy to be installed. The mast should be easy to be lowered and raised.

Civil works: Preferably with simple concrete works for central foundation and guy foundations.

Sensor locations: Wind speed at 10,30& 50 m level (or as specified)
Wind direction 30& 50 m level. (Or as specified)
Temperature sensor at 48 m or 10m. (or as specified)
Solar radiation sensor at 5m level.

Necessary holes are to be provided at the appropriate levels to take the sensor cables inside the mast.

The fabrication of the mast should be in accordance with the certified drawing and specifications.
